BULLETIN
By Associated Press Leased Wire
London, Aug. 13.—The capture of Mlaw and Pultusk and the occupation of Siedce are announced by the Russian soviet military headquarters in today's official statement.

BULLETIN
Warsaw, Aug. 12.—(By Associated Press)—Mlaw, an important city on the Warsaw-Danzig railroad about 50 miles northwest of this city, has been taken by the Bolsheviks, according to reports in military circles here tonight. Soviet forces are creeping along the Prussian frontier, and are gradually working their way westward toward the Vistula river.

BULLETIN
Warsaw, Aug. 12.—(By Associated Press)—Responsibility for continuance of the fighting in Poland was today placed upon the Russian government by Prince Eugene Sapieha, Polish foreign minister in a telegram sent to Sir Eric Drummond, general secretary of the League of Nations.

State of Siege
Has Been Declared

Warsaw, Aug. 12.—11 p. m. (By Associated Press)—Russian Soviet forces which are attacking the Polish lines northeast and east of this city have reached a point 25 miles from Warsaw. A state of siege has been declared here by the military governor.

Civilians are not permitted on the streets after 10 o'clock at night, and cafes must close at 9 o'clock.

The determination of the Bolsheviks to press onward to Warsaw showed itself at various points along the battle line today. There was hand to hand fighting in many instances. The Poles savagely defended their positions and contested every foot of ground.

Fighting was reported today within 30 miles of the capital. It was said Pultusk changed hands several times, and last accounts were that fighting was going on in the streets. The Poles were holding the west bank of the Narew river at this point, beating off the Bolsheviks from the north and hurling back other enemy forces which were trying to cross the river.

Hums With Activity.
Warsaw hummed tonight with military activity, but only soldiers and officers were allowed in the streets. Preparations for the defense of Warsaw were being made, and lights burned until late in the war office and the foreign office, where affairs of state were being discussed. The terms to be carried by the Polish delegates who will meet the Soviet representatives on Saturday to discuss peace preliminaries were also being drafted.

It was decided late tonight that two American and two British newspaper correspondents, as well as several Polish, French, Italian and Spanish journalists will accompany the peace delegation to the eastward on Saturday. Just how long the delegation will remain at Minsk, or wherever the conference will be held, is unknown, but diplomats here said tonight they expected the conference would last four or five days or longer.

Poles Successful
on Southern Fronts

Warsaw, Aug. 12.—11:20 p. m.—(By Associated Press)—Polish successes on the southern front, where the Russians have been pushing for Lemberg, are reported in tonight's official communication. The Polish cavalry and infantry have ousted the Bolsheviks from Radziechov, Lopatyn, Stany-stawczyk and Toporoff.

Armistice Delegates
Leave Warsaw for Front

Warsaw, Aug. 12.—(By Associated Press)—Polish commissioners with authority to negotiate a preliminary treaty of peace expect to leave this city early Saturday morning to meet Russian Soviet delegates somewhere on the road between Warsaw and Brest-Litovsk, the foreign office announced today. The meeting it was said, will take place between 5 and 7 o'clock Saturday evening.

American and British newspaper correspondents will be permitted to accompany the Polish delegates, the Bolshevik authorities having expressed a desire that they be present.

SNOW IN CHILE

By Associated Press Leased Wire
Santiago, Chile, Aug. 13.—The first snow storm that has visited San Diego in a decade occurred here today. About six inches of snow fell.

they considered the fall of the city now out of the question.

The Polish mark, which has been quoted during the last few days at 270 for 1 took a decided turn for the better today, rising to 175.

All Efforts to Defense.
Every possible effort is being made by the Polish government to support the army facing the Bolsheviks at the gates of the capital. Sleeping cars have been removed from all trains except those running to Vienna, and the telephone system is being decoyed exclusively to government requirements. Women are playing a prominent part in all activities.

Waitresses from hotels and cafes have taken the places of men in all Warsaw's commercial houses, the war offices and other branches of the government. More women are at present employed than at any time since the foundation of the Republic. Air raids over the Soviet lines along the Warsaw front are a daily part of the city's defense, aviators flying from the Warsaw aerodrome every 20 or 30 minutes for the front. One airplane caught fire when it was starting on a raid, the pilot and observer being killed, and four civilians were killed and six injured by the explosion of bombs when the plane struck the earth.

A branch of the American legation has been established at the Hotel Monopol, in Posen, where it will remain to await developments. John Campbell White, secretary of the American legation here will remain in Warsaw as long as possible.

Edward Noble, of Boston, Mass., a lieutenant in the Kosciuszko squadron of aviators who was wounded during the Kiev campaign, has been promoted to captain and has been awarded the highest Polish military decoration.

British Labor is
Strong for Soviets

By Associated Press Leased Wire
London, Aug. 13.—The opposition of British labor to assistance in the war against Soviet Russia was voiced today with extraordinary vehemence and absolute unanimity at a special conference representing all elements of the workers. The resolution adopted "hailed with satisfaction the Russian government's declaration in favor of the complete independence of Poland" and pledged the British labor party to resist any form of military intervention against Soviet Russia.

American Relief
Will Be Continued

By Associated Press Leased Wire
London, Aug. 13.—American relief workers will continue to care for Polish children they have been assisting for some time, even if through the fortunes of war these children fall into the hands of the Bolsheviks.

M. Kamenoff has assured the Americans he will use all efforts to have relief work protected.

The relief workers are reticent regarding their unofficial dealings with the Bolsheviks, fearing their humanitarian aims may be misconstrued in circles that are intensely anti-Soviet.

Fisher Shipp Concert company will appear at the Rock River Assembly tonight at 8 o'clock. This company will present character songs and readings in costumes that picture five different peoples; Dutch, Irish, Italian and American. These are given with piano accompaniment by Mr. Lear. Only about twelve seconds interval is required for each change of costume.

Miss Fisher Shipp, heading the company, has a lyric soprano voice of remarkable range and great flexibility. To this she adds talent as a reader and characteristic that has endeared her to lyceum audiences in every part of the country.

Miss Rachel Major has concertized extensively and successively, possessing a fine gift of music well instructed. Her violin solos are rendered with deep feeling and thorough musicianship. Miss Major's portion of the program may well be termed a "major portion."

Miss Roma Swarthout will quickly demonstrate to her audience her complete control of a beautiful and appealing contralto voice. Her work with the company will prove most acceptable. In addition Miss Swarthout will act as accompanist.

Lloyd Lear is generally regarded by the musically astute as among the greatest mandolinists living. He is, in addition, an authority in musical theory, composition and orchestration. His services in music arrangement are in great demand by well known publishers. He has been chosen soloist for the Annual Concert of the American Guild on three occasions. He is also a violinist of note, and is accompanist in many of the numbers.

Lorado Taft will appear at the Assembly for thirty minutes Saturday afternoon and will discuss, "The City Beautiful." The Dixon Municipal band will again appear for thirty minutes Saturday evening, playing a prelude for Mr. Taft.

Games at Antwerp
Tomorrow.

BULLETIN.

By Associated Press Leased Wire
Antwerp, Aug. 13.—France won the 170 kilometer road race, the Olympic bicycle classic here yesterday. Sweden was second, Belgium third and Denmark fourth. The order of the team standing was determined by the times made by the four competitors of each nation in the race.

Stenquist of Sweden the best individual time 230 minutes 14-5 seconds. The American entries all finished the race, but their time was over five hours.

By Associated Press Leased Wire
Antwerp, Aug. 13.—Dress rehearsal for tomorrow's opening of the great stadium where the seventh Olympiad will be staged was held today.

Albert, King of the Belgians; Queen Elizabeth and their son Cardinal Mercier and many other notable figures will witness tomorrow's ceremony. The American contingent will be led by Patrick McDonald, who, standing six feet five inches tall, will carry the American flag. Allen Eillen, the 12 year old American girl diver, will be the youngest contestant in the parade, but she will have a close competitor in point of years in Nils Skoglund, a Swedish boy aged 13, who is also an entrant in the diving event. The oldest competitor will be Swan, a Swede, who although 72 years old, helped his nation's rifle team to win first place.

Streets Decorated.

The streets are arched with decorative and belagued structures, while along the thoroughfares have been erected columns from which the flags of the competing nations are flying. Antwerp has suddenly become a cosmopolitan city and there is a babel in every hotel lobby and sidewalk cafe. The city is going through "stop watch fever", and every jeweler's shop is advertising them. These watches are in demand, more, perhaps, from the fact that they bear on their faces the inscription "Seventh Olympiad Antwerp 1920", than from their time keeping facilities.

America will enter the stadium when the games open on Sunday with a one point lead over her nearest competitor. America's score (57) was gained, for the most part, by her riflemen while Norway amassed her total (56) by the work of her men in yachting, skating and shooting.

Ponzi's Bond Holder
May Get Protection

By Associated Press Leased Wire
Boston, Aug. 13.—All New England awaited with keenest interest today further developments in connection with the crash of Charles Ponzi's scheme of quick finance to the building of which 40,000 investors are alleged to have contributed from \$15,000,000 to \$20,000,000 and federal and state officials continued with renewed vigor their investigations with a view to disclosing every ramification of the affairs.

Legal steps to protect Ponzi's note holders continued to be taken today. The belief was expressed at Attorney General J. Weston Allen's office that it will be possible to compel persons who cashed their Ponzi notes with interest previous to the crash to return the money for pro-rata distribution among all the creditors. Representatives of the attorney general are making a study of this angle of the situation, working on the theory that the money distributed by Ponzi was stolen and so can be pursued and recovered anywhere, it was announced.

Sept. 1 to Get Benefit
of New Laws.

L. W. Miller, of this city, county superintendent of schools, has received a communication from R. D. Clardy, secretary of the Teachers' Pension and Retirement Fund, at Springfield, in which he writes as follows: "I wish to call your attention to the fact that the time as provided by law for teachers to qualify as contributors to the Pension Fund is rapidly drawing near. All teachers who taught prior to July 1, 1915, in the public schools of Illinois, must qualify as contributors to the Pension Fund before Sept. 1, 1920, if they desire to receive benefit under the Law in the future. Extend this publicity in your county as wide as you think necessary."

"I also wish to inform you that this year on account of the great number of teachers who are qualifying as contributors to the Pension Fund during the last few weeks allotted by law, it renders a matter of impossibility to take care of the reports as rapidly as we could under ordinary circumstances."

"I recommend as soon as possible you send your annual report to this office made out as completely as you can, listing the omitted districts as they should be. As soon as we have time to check the reports on file with your report we will do so and report to you the delinquent districts and the condition of your report."

By Associated Press Leased Wire
Springfield, Ill., Aug. 13.—Child labor in Illinois, which reached its height during the war when a liberal interpretation of the child labor law was permitted for the sake of production, has not receded as it should, according to Barney Cohen, director of the state department of labor.

"Many employers insist upon employing children when the work should be for older workers," Mr. Cohen said, commenting on the 27th annual report of the chief factory inspector.

This report, just made by Robert S. Jones, of Chicago, shows that there are 26,888 children working in Illinois. A total of 53,252 work certificates were issued them, some of them obtained as many as ten different certificates for ten different jobs.

The report shows an increase of 1,563 in the number of certificates over last year. In factories inspected by Mr. Jones 7,886 boys and 7,255 girls were employed. They made up 1.5 per cent of the total number of workers.

The factory inspector's table of children's work certificates granted gives the following figures for the more important Illinois cities:

Armistice Rumors
Brings Break in
Prices of Grains

By Associated Press Leased Wire
Chicago, Aug. 13.—Chances of an armistice being arranged between Russia and Poland had a bearish effect today on wheat market. Word that British royal commission had again withdrawn from the market as a buyer counted also as a depressing factor. Pit transactions were of only moderate volume. Opening prices, which ranged from the same as yesterday's, closed 2 1/2c higher, with December 2.45 to 2.46 1/2 and March 2.49 to 2.50 were quickly followed by a sharp break all around.
Corn like wheat was depressed in value by talk of the probability of an armistice. After opening unchanged to 3/4c lower, including September 1.51 1/4 to 1.52 1/2 and December 1.26 1/4 to 1.27 the market underwent a decided general setback.
Oats reflected the weakness of other cereals, starting unchanged to 3/4c down, and sagging still more prior to any sign of a rally.
Higher quotations on hogs lifted provisions. Trade, however, was small.

PRE-NUPITAL PARTY—

Mrs. H. E. McCleary was hostess at a delightful pre-nuptial party yesterday afternoon in honor of her sister, Miss Josephine Livan, who is soon to be the bride of Mr. Roy McCleary. The guests numbered thirty relatives and friends.

The forepart of the afternoon was spent in playing games and later Miss Livan was asked to go on an errand and when she returned was told to be seated beneath a bower of

wedding bells and greenery where she was given a surprise when the little Misses Ruth and Roberta Keyes, nieces of Miss Livan, dressed as a bride and groom and drawing a much decorated chariot loaded with gifts made their appearance. Upon reaching the bride-to-be they presented her with the gifts and standing at the side of her chair, sang "Those Wedding Bells." When the bells were rung they mysteriously contained rice which was showered on the bride-to-be. Much merriment was derived from the reading of the rhymes which accompanied the gifts.
Delicious refreshments were served late in the afternoon after which the

guests departed leaving much good advice in "Do's and Don'ts" for the bride-to-be.

6 O'CLOCK DINNER—

Mrs. Henry F. Briscoe was hostess at a very delightful 6 o'clock dinner last evening. The occasion being as a farewell to Miss Emma Mathias who leaves next week for her home in California. Covers were laid for six. The table was prettily decorated in yellow and white, a large bouquet of yellow garden flowers was used as the centerpiece.

The guests were Misses Mabel Mangus, Marjorie Bovey, Emma Mathias, Edna Dimmick and Ida Ware.

The five daughters of Mr. Smith had assisted in arranging details and while the guest of honor was down town, twenty in number gathered, each having contributed something toward the sumptuous dinner served at 1 o'clock. RESTING OR RUSTING?

Your boy is having a vacation from
school. But are you certain he is not
in a vacuum rather than on vacation.

A boy who spends his vacation en-
tirely in idleness is worse off than if
he had no vacation at all. His mind
is in a vacuum that makes fertile soil
for noxious weeds of thought and
character.

The empty mind is not really on a
vacation. It is rusting, not resting,
for the mind rests not by idleness, but
by change of routine and occupation.

So it is well that the parent should
give thought to what the boy is doing
with his three months of spare time
called vacation.

As a corrective of the aimless vaca-
tion an educator has prepared a "vac-
ation time table" for boys and girls.

He would have them out of bed by
7 a. m. and let them play hard until
11. After that he would insist on two
hours of helpfulness about the house—
light chores, work in the garden
and easy errands.

The hours between one and four he
sets aside for the reading of good
story books, and from four to eight he
would allow more play with time out,
of course, for supper and the evening
family reunion.

And that is a good schedule. But its
principal value lies in the fact that it
is a schedule, a program, a method of
mental discipline. It does away with
the aimlessness that destroys the value
of school vacations. It gives the
parents a regulating check on the ac-
tivities of their child who otherwise has
only his sweet will to follow during
the three months of his release from
the discipline of the classroom.

STRENGTH OF SOUND

It wouldn't be such a difficult job to
"shake the earth to pieces."

Experimenters have often built lit-
tle cardboard and paper houses in
their laboratories and knocked them
down with music.

A scientist has said that if he could
place a bass viol on every floor of the
Woolworth building, tune them ex-
actly alike and station himself across the
street with another instrument, he
could in time "play down" the build-
ing—leave not one stone on another.

When a heavy truck rumbles by
your house, sometimes the windows
rattle and the dishes in the cupboards.
Now suppose there was a sound that
would make every single thing in your
house move in sympathy with it.
Pretty soon the dishes would wait to
the edge of the shelves and topple over.
The shelves, rattling to the same
note, would pull from their nails and
the chimney bricks loosen in the mor-
tar and slip down.

There is such a note for every thing
in the world. It is called the "funda-
mental" and it differs according to the
size, shape and material of the thing.

You could destroy life itself with
sound. You have heard a note, some-
times, on a church pipe organ that
pounded and throbbled "inside" until it
actually hurt you.

That was because that organ pipe
was very near the fundamental note
of your body. Had the organist struck
the fundamental and kept it playing
long enough he would have literally
torn you to bits.

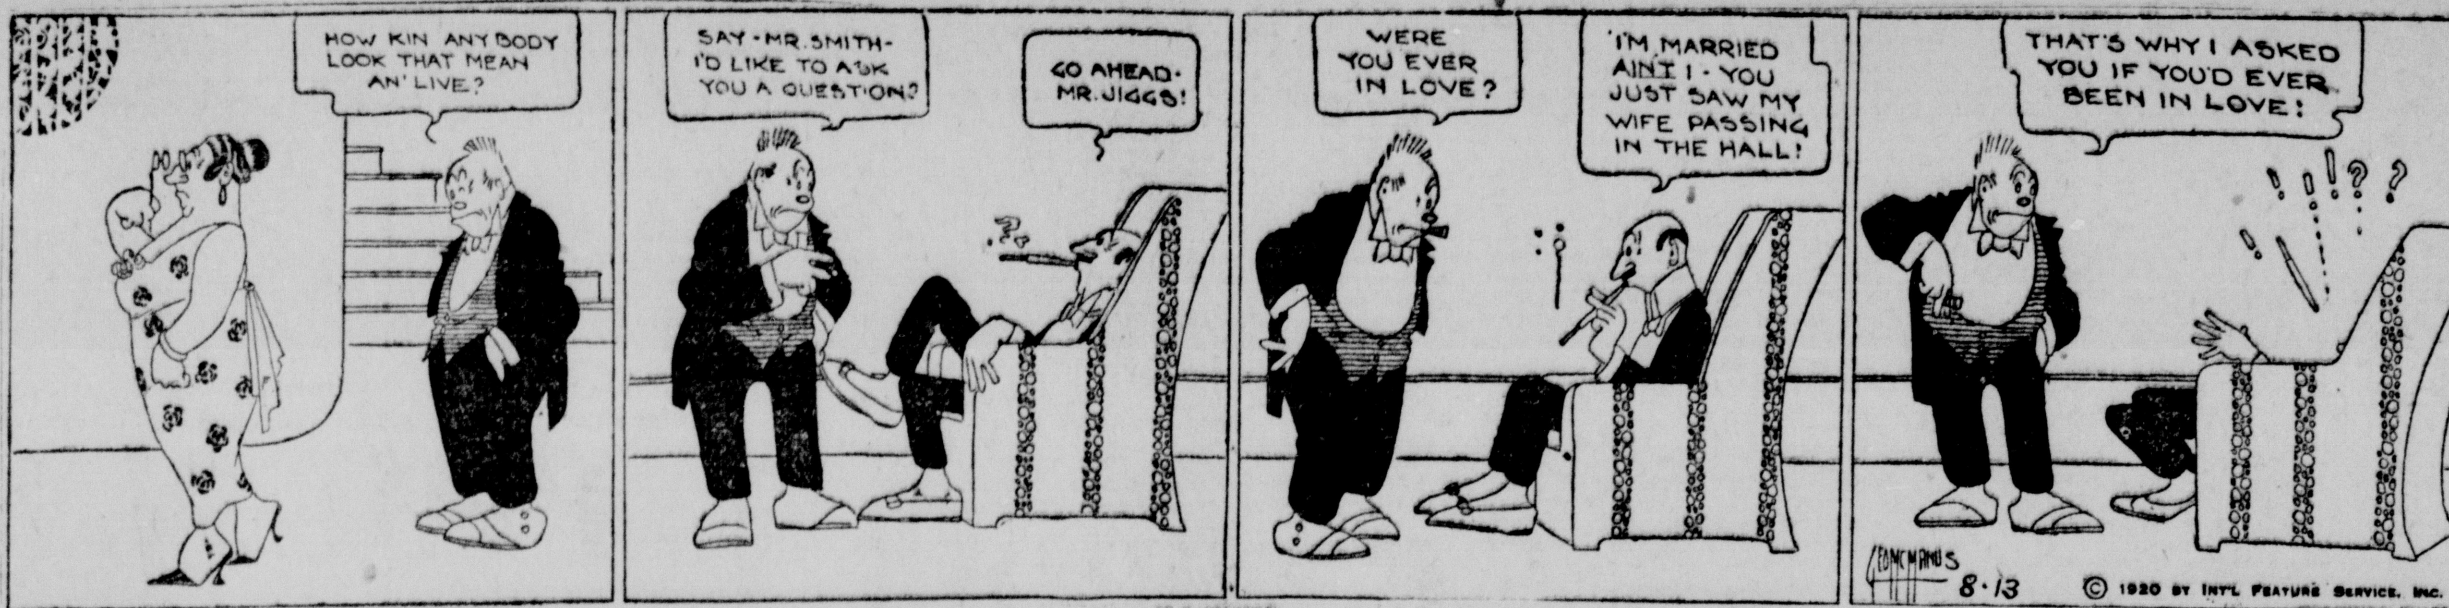

If that is a "hunch" to some scien-
tific criminal—let him make the most
of it. Fundamentals are not the
easiest things in the world to find.

This wear-your-old-clothes move-
ment will save a lot of freight
charges on boxes sent to missionar-
ies.

Inflated prices must choose be-
tween a slow leak and a blow out.

Take care of the pennies and the
war tax will take care of itself.

ADVENTURES OF THE TWINS

SNOOPY WANTS THINGS.
Snoopy Skunk locked his door as he
went out, and put the key under the
mat, while Tingaling, the fairly land-
lord, and Nancy and Nick, the twins,
watched him closely.
"If it's all the same to you," grin-
ned Snoopy, "I won't go back for my
money. I may as well owe you twelve
months' rent as eleven, since you say
you're in no hurry."
"Not at all," smiled Tingaling.

TINGALING, TRYING TO LOOK AS
CHEERFUL AS POSSIBLE, MARK-
ED "BEDROOM-LAVENDER" IN HIS
RENT-BOOK.

The front stairs are painted I want
'em waxed."
"Stairs—waxed," wrote the fairy.
"And the house faces north. Turn
it south," went on Snoopy.
"House—south," wrote the other.
"And the woods keep out my view.
Move 'em ten feet to the left," com-
manded Snoopy.
"Words moved," scribbled Tingaling
pretty crooked, the corners of his
mouth down at last. "Is that all?"
he inquired timidly.
"All?" exclaimed Snoopy. "I hav-
en't begun."

MARRIED ONE DAY;
COUNTER, HE SAYS.

Columbus, O.—"Morals are on the
bargain counter throughout the
country," declares the Rev. Daniel P.
Rittenhouse. He urges his congrega-
tion "get back" to the "old-time
respectability and religion." Other
Columbus pastors are joining in con-
demning what they term the laxness of
present-day morals.

The large patches of total blackness
amid the myriad of stars in the sky
are sometimes referred to as "coal
cellars."

Such is
Life

Consider, my son, these words:
Perspicacity:
If you succeed in life, —
If you would have your cause suc-
ceed,—
Let these twin words be born into
your soul.
And let them be born in this order:
Perspicacity,

Pertinacity,
for if Pertinacity be born first, all
is lost.
If you are interested in your suc-
cess solely, consider our ancient
friend, John D.

John D. had the perspicacity to
perceive that Oil was to be a tre-
mendous commercial force in the
world, and he had the pertinacity to
achieve oil control.

This is not defense of his methods,
but merely a record of the fact of his
achievement. He said himself, "The
oil of the world is mine, if I have the
perspicacity." He saw that if he could
control transportation he could con-
trol production and refining. After
transportation, he tackled organiza-
tion, which led him to practice mo-
nopolization.

From the standpoint of self-suc-
cess, he is a shining example of the
application of Perspicacity and Per-
tinacity.

If you are interested in the success
of another, be that other sweetheart,
helpmeet, child, friend or some lead-
er to whom you would prove devo-
tion, well, there is Joan of Arc.

Nothing wonderful about Joan ex-
cept her Perspicacity and Pertinacity
and those are close to miraculous.

Accept the legend to the Vision or
not, as you please, yet in some way
this poor, ignorant peasant girl had
the perspicacity which saw that the
fate of France was wrapped up in
that wretch of a dauphin and that he
must be crowned at Rheims in defiance
of the English.

And then she had the pertinacity
to achieve it.

If you are interested in the success
of your cause, if you would save the
world, well, there is an example of a
printer in San Francisco, poor and
unknown, who had the perspicacity
to see that primitive political econ-
omy consists of having free men up
on free land, and that if anyone can
control the land, he can control the
producer and the consumer both.

These three will suffice for the les-
son—

The poor boy, John D.,
The ignorant peasant child, Joan,
The out-at-elbows printer-man,
Henry.

Each had the Perspicacity,
And the Pertinacity.

Here are some of things that are
easily avoidable if you want to take
care of your arteries:
Lead poisoning is one of the com-
mon causes of arterio-sclerosis. Per-
sons handling lead painters are fre-

quent victims) should be very careful
when they eat, and they should avoid
all possible ways of getting any of the
lead or paint in their food or drink.
They should brush their teeth after
each meal.

Syphilis is the worst and most cer-
tain cause of arterio-sclerosis. This
can only be surely avoided by lead-
ing a clean, chaste, moral life. If a
person is so unfortunate as to have
acquired syphilis, he must at once ap-
ply for treatment and be sure to stick
to the treatment as long as his doctor
wants him to. It is a disease that
generally requires active treatment
for several years, and that requires
watching for the remainder of life.

Alcohol may not be a direct cause
of arterio-sclerosis, but is surely very
often an indirect cause. Thus the
person who drinks liquor is more
easily poisoned by lead than the one
who never touches it. The person
who drinks is also more likely to get
syphilis, for various reasons. Then,
alcohol has a damaging effect on the
stomach and liver, producing gastritis
and cirrhosis. In this way the food
is not properly digested. Part of it is
turned into poison when it gets into
the intestine, and this poison enters
the blood and causes damage to the
arteries. This cause of arterio-scle-
rosis is a very powerful one. The
safest plan is to leave alcohol entirely
alone.

There are two other causes of ar-
terio-sclerosis, but the above are the
most important avoidable causes, and
it is because they are avoidable that
we particularly discuss them.

GIRLS MARRY EARLY
TO REST HER TEMPER.

San Francisco — Many girls are
marrying under 18 and against their
parents' wishes, according to Miss M.
T. Green, probation officer of the Ju-
venile court. She believes the reason
for this is that women are becoming
weary of working and that the house-
work girls have to do today amounts
to nothing.

THE BOOK OF ANN

The Divorced Husband Uses His Old
Tactics on a New Love

"Eternity and the end of my torture
were but an hour away, but as I
watched my husband across the table
from that pretty girl, I knew that I
was facing more agony than I had en-
dured in all my previous life. I could
not believe that the man could forget
me. That was my egotism, I suppose.
I had given him all the glory and all
the humanity of perfect love. He must
remember, I told myself, he must still
keep a little corner of his heart for
me.

"I didn't know, or at least I would-
n't let myself consider a great truth:
"Man doesn't love a woman for
what she has given him. He loves her
for what he hopes to get.

"I had given much, and he had for-
gotten, and his hope was fixed on the
girl across from him.

"I watched her. I knew about her.
He and she had the artistic temper-
ament plus. They were collaborating
or thought they were—on some west-
ern stuff for the movies.

"The girl was a beauty—a peach—
and a jolly good fellow as well. One
of those versatile creatures who can
do a dozen things—paint and write
dramas, act, and sing and do news-
paper work. But the trouble was that
she never could convert her talents
into a steady income. Perhaps she
was cultivating too many of them at a
time.

"She listened, perfectly absorbed in
what my husband was saying. I saw
her eyes widen and her cheeks glow.
Just so I had listened to him a thou-
sand times. As I watched him, I could

guess what he was saying. He was
demonstrating for her the same line
of flattery he handed to all women
who attracted him.

"Suddenly a new idea of the whole
situation took possession of me.

"I knew his opinions his intentions
to the final infection. First they
would talk about new fiction and the
stage, then they would discover that
they had the same sympathies and
tastes in art. They would speak of
love—the basis of all art—and thus
they would arrive at sex in general
and then sex in particular.

"And the man would protest that a
woman must have brains to move his
pulses. Brains before sex charm. He
never had met a woman with as much
brains as she had.

"That was his usual approach to a
woman he desired to please. He was
handing it to the girl—I could tell
from her manner, and her eyes. She
was married and sophisticated and
aware of nature's trap, but she looked
up at the man as if he were some-
thing new under the sun, while he
went on with his appeal. I had lis-
tened just so, in my time. After this
girl would come another devoted lis-
tener. Next winter there would be
still another—and so on—far into the
man's old age.

"And suddenly, the episode struck
me as being awfully funny. Now you
women may consider me curiously
inconsistent, or flakey, or maybe quite
hard, but I want you to know that my
horrible heartache left me! It simply
slipped away! And it has never come
back!"

"But you must have been awfully
jealous!" said Chrys.

"I felt that I ought to be. But some-

how, I wasn't. I surprised myself. I
wasn't even interested in the pair any
longer. I paid my bill and walked out
of the tea room. The man's love af-
fairs were no more to me than those
of the waiter—or of some Mohammed-
dan in Constantinople.

"I went straight to a movie director
whom I knew and found employment.
Then I knew for Ann."

"And why have you never had a
jealous pang since? Can you tell me
that?" asked Chrys.

"I think so. What I saw proved to
me that I was absolutely forgotten.
The man had never guessed the
amount, the intensity of the love I had
lavished upon him. It was the tribute
of years, the consecration of my soul
and my body and he had 'passed it up'
for a woman who would fall into his
arms in seven days or less."

Of course, there will be many thousands out next Sunday to see and hear United States Senator Hitchcock, of Omaha, Neb. His address will be well worth hearing for he will bring a great message to the Assembly. Hitchcock has been in public print a great deal lately on account of his work in the United States Senate. He had charge of the league of nations issue when it was before the Senate for consideration and was the President's chief counselor and advisor.

addressed the Assembly on the subject, "The Penalty of Peace." Smith knows life. His lectures spring from vital human contacts. At fourteen years of age he was traveling from town to town painting signs to pay his way through school. Before entering college he had worked as a mill-hand, a machanic's helper, a farm laborer and W. Gunsaulus invited him to come to Chicago as his associate. Smith is a man of many interests. Mr. Smith writes extensively for the religious press and is the author of several books on social themes and community service.

Assembly Notes.
Miss Ruby Kregor, of Lestant, Ill., is here and will remain with her mother, Mrs. Kregor, until the close of the Assembly.

Mrs. Harold Apperson, of Amboy, is the guest of "Farmer" and Mrs. Brown, of Prophetstown.

Mr. and Mrs. George Clark, of Sterling, and Mr. and Mrs. L. C. Ryan, of Altoona, Pa., were supper guests of Mrs. Minnie Anderson Wednesday evening at the Anderson tent.

Arthur Condo, of Sterling, was the guest of Miss Lillian Powers, also of Sterling, who is a guest of Miss Lena Anderson, at the Anderson tent.

And now we will have to give you a short "write up" on the breakfast given by the campers from Prophetstown Thursday morning at Lowell Park. By some "hook or crook it

was possible to get the men out of the cots on time—for the boat left for the park at 7 o'clock. "Lawyer" Waite was the last man to board the boat and he was wearing his shoes after he got aboard. "Farmer" Brown wore his bathing suit during the ride to the beach at Lowell Park. The "wommin'" folk reported early, were on time at the dock and each one "fetched" a well filled basket. The big feature of the breakfast were "win- nings." "My, but they were good!" So said "Judge" Richards. A brief program was given for the special benefit of the "wommin'." Hon. Waite gave several readings. He also rendered several vocal selections. Everybody was highly pleased and delighted with the dancing and waltzing of "Farmer" Brown. Editor Hatchkiss de-

lighted with a whistling solo, surprising his friends and neighbors with his part of the entertainment. The party returned in time to enjoy a game of "horseshoe" before the dinner hour.

Carthage College Picnic.
Students, former students and friends of Carthage College to the number of sixty, attended the annual picnic held Thursday afternoon at Lowell Park. The principal feature of the picnic, of course, was the "eats" and each person played a prominent part at the festival board. In addition to the picnic supper there were plenty of college songs, and stories relative to the college life at Carthage.

had saved the best musical attractions for the closing days of the Assembly. This is true with the program of Thursday afternoon and evening when the Kilties Orchestra held the "boards." Nearly 3,000 people greeted the Kilties at their evening's entertainment. A large crowd was present when they gave their afternoon concert. The Kilties put vim and push into their playing and their music holds your attention more and then more. This was evident last evening for one selection brought forth three encores. The boys are a jolly lot. They are masters of their instruments. The solo parts were par-

excellent. The baritone singer won the praise of everyone. In substance, it was one of those concerts that you can't get too much of and the time passes so rapidly that you are surprised at the lateness of the hour. But, you have been entertained. The closing number of the concert was, "Stars and Stripes," by Sousa, and it was played with all energy that was possible to put into it. Everyone was delighted with this number.

Now, just a brief statement concerning the "Kilties." The boys are all students from the University of Wisconsin, doing concert work during the summer months. They are gentlemen, each one of them, and each one

has given considerable attention to music, as can well be seen by the program put on here last evening. The boys handle nothing but high-class music. One of the big hits of the evening's program was the rendition of the "American Patrol." Concerts like the "Kilties" give what the people desire. Music that these boys play appeals to the general public.

Low-Cost Mileage—Get It in Goodyear Small Car Tires

There is no economy in buying so-called bargains in tires offered at sensation-ally cheap prices when a well-made tire delivers mileage at a considerably lower rate of cost.

Add the time and trouble occasioned by frequent replacements and it is fully apparent why tire users, seeking real mileage economy, are not attracted to very cheaply priced tires.

The popularity of Goodyear Tires, of the 30 x 3, 30 x 3½ and 31 x 4-inch sizes, is based on the fact that they are built to deliver exceptional mileage at low cost and consistently do so.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for true Goodyear mileage, value, economy.

DIXON BOXING FANS PLAN TO ATTEND BIG SHOW AT CAMP GRANT

Some Good Bouts on Card
for Program Next
Wednesday.

A large number of Dixon boxing fans are making arrangements to be present at the next show to be given at the Camp Grant arena on Wednesday evening, August 18. The talent that has been booked for this year match is the best offered this year and with weather permitting the big open air arena should be well filled.

Lieut. Robert J. King, who is promoting the show, has announced the following bouts:

Frankie Kick, Rockford, vs. Marty Henderson, Joliet, featherweights, 10 rounds.

Joe Mandell, Rockford, vs. Benny Vogel, Minneapolis, bantamweights, 10 rounds.

Hamil, Camp Grant, vs. Brentz, Belvidere, lightweights, 6 rounds.

Stanli, Camp Grant, vs. Boyd Grush, Sterling, heavyweights, 6 rounds.

Marty Henderson, of Joliet, 126 pound battler, who trimmed Tony Caponi's sails at Rock Island recently, has been signed to meet Frankie Kick, of Rockford, in the second half of the double windup. Both men have been given the preference over a long list of popular boxers. Kick and Henderson have been going at top speed this season and have risen high in the list of the middle western fighters.

Joe Mandell, who meets Vogel, of Minneapolis, is a local favorite, he having appeared here on one occasion.

Boyd Grush, of Sterling, a Whiteside county entrant in the Olympic trials, who knocked out his opponent in the preliminary bouts in the heavy-weight class.

FOLLOWED HER FOR TWENTY LONG YEARS

"Tanlac Is the Only Medicine That Ever Did My Troubles Any Good," Says Illinois Woman.

"By taking Tanlac I have been entirely relieved of troubles that have followed me for twenty years and have gained fifteen pounds besides," said Mrs. C. L. Pedrick, 544 South Fourth Ave., Canton, Ill.

"For the past twenty years I had been having trouble with my stomach which gradually grew worse all the time. My appetite left me almost entirely, I would bloat up with gas after every meal until I was in perfect misery and have such intense pains in the pit of my stomach I could hardly stand them. Then, too, at times I had severe cramping spells and it would be hours before I could breathe easily. I was almost a complete nervous wreck, the least little thing upset me,

and I never had a good night's rest, always getting up in the morning feeling worse than when I went to bed. I had an attack of the 'flu' and my friends did not expect me to live. Then I had to undergo an operation and was in a hospital for two weeks and as I got no better I finally gave up in despair.

"My husband saw a statement by a friend of ours telling of the wonderful benefits she had received from Tanlac, so we decided that I had better give it a trial. I commenced feeling better before I had finished the first bottle. In a short while I could eat more with less suffering afterwards, my nerves quieted down, and I could sleep better. I continued taking it until all my troubles were completely gone. I have not felt so well in twenty years and I am still enjoying the best of health."

Tanlac is sold in Dixon by The Public Drug & Book Co., and by the leading druggist in every town.
